EXPERIENCE

Frontend Developer Intern

Techavtar

March 2024 – July 2024

Remote

- Built the frontend for the **KnectHotels SaaS platform**, featuring dashboards, check-in/out, and service requests.
- Integrated role-based APIs and created 20+ **Zod-validated forms** for secure data entry.
- Engineered dynamic tables with sorting, filtering, and CRUD operations for **1,000+ records**.
- Collaborated in a 6-member Agile team to deploy client-centric solutions using **React** and **Tailwind CSS**.

PROJECTS

Command Center (Productivity Ecosystem)

Next.js 15, TypeScript, Express, MongoDB

- Architected a scalable full-stack platform using **Next.js 15**, adhering to industry-standard **MVC patterns** and **TypeScript** strict typing to ensure codebase maintainability.
- Engineered a complex **Hybrid Authentication System** using an **Access/Refresh Token strategy** stored in **HTTP-Only Cookies**, securing the application against XSS attacks while maintaining seamless user sessions via **custom API interceptors**.
- Implemented sophisticated **MongoDB Aggregation Pipelines** to process complex time-series data, transforming raw logs into real-time analytics and interactive visualizations using **Recharts**.

Streamy (Video Hosting Backend)

Node.js, Express.js, MongoDB, JWT

- Engineered a scalable backend supporting video uploads, comments, and real-time interactions using **Node.js**.
- Integrated secure session management using **JWT** and **Bcrypt**, implementing a subscription system.
- Optimized database schemas for high-volume read/write operations for video metadata and analytics.

Mental Health Assessment System

Next.js, TypeScript, Python, BERT

- Developed a responsive frontend using **Next.js** and **Framer Motion** for interactive animations.
- Constructed a **Python** backend utilizing the **BERT model** to classify 6,000+ mental health statements with **91% accuracy**.
- Designed a dynamic dashboard to visualize assessment results.

EDUCATION

Master of Computer Applications (MCA)

Birla Institute Of Technology, Mesra

2023 – 2025

CGPA: 7.32

Bachelor of Computer Applications (BCA)

MLT College, Saharsa

2018 – 2021

CGPA: 7.7

SKILLS

Next.js 15 React.js TypeScript
Node.js Express.js MongoDB
Server Actions Shadcn UI
Tailwind CSS Framer Motion
Recharts Java Python
Git & GitHub Postman Vercel

OPEN SOURCE

- DollhouseMCP/mcp-server**
Fixed Path Traversal Vuln (PR #1035)
- mdn/content**
JS Docs Improvements (PR #41251)

CERTIFICATIONS

Web Development Program

Yhills

May 2024 – Aug 2024

- Completed 3-month intensive MERN stack training program.

STRENGTHS

- Full Stack Architecture
- Secure Authentication Systems
- Data Visualization
- Agile Collaboration
