SUMMARY

Recent **MCA graduate** with experience building **production-grade web applications** using the **MERN Stack**, **Next.js**, and **REST APIs**. Optimized performance through **Redis caching** and state management, achieving 90% improvements. Contributed to **open source** and delivered **SaaS** features in an **Agile/Scrum** environment at Techavtar. Seeking full-time software engineering roles to build scalable applications.

EXPERIENCE

Frontend Developer Intern

Techavtar

Mar 2024 – Jul 2024

Remote

- Developed **KnectHotels SaaS** frontend — integrating **REST APIs**, implementing **RBAC & authentication**, and architecting 20+ **Zod-validated forms** for data integrity.
- Built **real-time dashboards** with data visualization and dynamic tables with sorting/filtering for **1,000+ records**.
- Collaborated in a fast-paced **full-stack Agile/Scrum** team, delivering responsive UI components using React and Tailwind CSS.

PROJECTS

Command Center - Developer's Productivity Tool

Next.js 15, TypeScript, Express, MongoDB

GitHub | Live

- Built full-stack **productivity dashboard** with **MVC architecture** and **Hybrid Auth**(cred. + OAuth) using HTTP-Only Cookies and JWT.
- Developed **MongoDB Aggregation Pipelines** transforming logs into real-time analytics via Recharts.

Pokedex Pro - Pokemon Discovery Platform

Next.js 15, Redis, Zustand, TypeScript

GitHub | Live

- Implemented **staggered fetch algorithm** for rate-limited APIs, eliminating timeouts and ensuring 99% uptime.
- Integrated **Cache-Aside strategy** with **Upstash Redis**, reducing retrieval time from 2s to <20ms.
- Leveraged **Zustand** for global state, enabling instant search across 1,000+ entries.

Streamy - Scalable Video Backend

Node.js, Express.js, MongoDB, JWT

GitHub

- Engineered **production-grade video platform** with modular architecture, centralized error handling, and **JWT/Bcrypt** authentication.
- Implemented MongoDB aggregation pipelines and optimized schemas with indexing for sub-100ms response times.

TECHNICAL SKILLS

Languages

TypeScript · JavaScript · Java

Frontend

React.js · Next.js 15 · Tailwind CSS · Zustand · Axios

Backend

Node.js · Express.js · MongoDB · Mongoose · Redis

Tools

Git & GitHub · Postman · Server Actions

ACHIEVEMENTS

- Open Source:** Contributed to **12+ issues and counting** across global projects, including enhancing **MDN Web Docs** (PR #41251) and patching a **path traversal vulnerability** in *mcp-server* (PR #1035)
- Data Structures:** Solved **370+ problems** on LeetCode and CodeChef, building a strong foundation in **DSA basics** and logical problem-solving through consistent practice.

EDUCATION

Master of Computer Applications

BIT Mesra

2023 – 2025

CGPA: 7.32

Bachelor of Computer Applications

MLT College, Saharsa

2018 – 2021

CGPA: 7.7

CERTIFICATIONS

Web Development Program

Yhills

May 2024 – Aug 2024

- Implemented CRUD operations with ReactJS, axios lib. on **mock server**.
